

THEY HAVE WON SIX STRAIGHT CONFERENCE GAMES

Left to Right: McMillan, Dippold, Rutledge, Owens, Morgan, Slusher, Coach Brewer, Farmer.

SPORT

In the Missouri-Ames track meet, which will be held on Rollins Field next Saturday morning, H. F. Schulte expects new records to be made by the Missouri men.

The war scare has cost Ames three of its best track men: Scraggie, the half-mile; Miller and Baird, both broad jumpers. Missouri has lost five men: Berry, Baker, Teas, Gabelman and Warren. Schulte says these men would have made at least 20 points. "With Duncan and Gearhardt running, the mile race should be a record breaker," said Schulte yesterday. Missouri will be represented in the half-mile by Rider and Corwin, and in the quarter-mile by Daggy, Wyatt and Selbie. Scholz, Simpson, Renick and Pittam will run the sprints. Schulte expects Scholz to set a record in these events.

Missouri students will see Daggy, Wyatt and Simpson perform for the last time in this meet, for all of these men are seniors, and this will be their last race on Rollins Field.

Valley Tenn's Meet at Manhattan in May

The Minor Sports Committee of the Missouri Valley Conference has selected May 26-27 as the date of the Valley Conference Tennis Tournament and Manhattan, Kan., as the place. Fred Williams captain of Missouri's team, will have an entry.

Tigers and Jayhawkers to Meet in 4 Events Next Week.

Next week will be a Kansas-Missouri fight on the athletic field, consisting of two baseball games, which will perhaps be the deciding ones in the Missouri Valley Conference, a dual track meet and the annual Missouri-Kansas tennis tournament.

The baseball games will be played at Lawrence, May 10 and 11. A victory for either team will put them just that much nearer the championship, for Missouri and Kansas are the only contestants remaining for the title, the other conference members having lost enough games to put them out of the running. The track meet, May 12, will also be at Lawrence and will be almost as close as the baseball games, according to Chester L. Brewer, director of athletics. One of the week's events, however, will be staged here—the tennis tournament. The strength of the Missouri team cannot be estimated on account of the few times which the men have been able to practice, due to bad weather and the delay in getting the new courts in shape.

Wyatt and Gabelman Go to Fort Riley.

Grant Wyatt and Fred Gabelman, Tiger track stars, will not compete in the annual Missouri-Ames track meet, which is to be held on Rollins Field, May 5. They will go to Fort Riley, Kan., this week to take three months' military training in the Officers' Reserve Corps' training camp.

Wyatt is a senior in the School of Engineering and has won him M in track each year of his eligibility. He is a member of the team which Missouri sent to take part in the Penn relays.

Gabelman won first place in the mile run at the K. C. A. C. indoor meet held in Convention Hall this spring. He is a junior in the College of Arts and Science.

The Tiger baseball team has a mascot, and Ignatz is his name. On the recent trip to Ames the team heard of a lizard much treasured by a baseball team because it brought them continual victory. So when members of the team met a man offering chameleons for sale, they bought one.

Ignatz was taken to the field and when Giltner's turn at the plate came, was forced to travel around and around "Mike's" bat—just for luck. When Missouri won both games, the Tigers hailed Ignatz as a mascot worthy of the name.

FEEDERS TO SEE M. U. CATTLE

Cost of Fattening and Meat Shortage Will Be Discussed at Meeting.

Cattle feeders and farmers who are interested in discovering a means of lessening the grain requirement in fattening cattle will accept with interest the invitation to come to Columbia on May 4 and inspect the steers fed by the Missouri Experiment Station during the past winter. The cattle feeders' meeting will be held at 10 o'clock in the morning.

Forty head of cattle in five lots of eight each will, on May 4, have been fed 130 days on five rations. L. W. Conover of Alexander, Ward and Conover, a big commission firm of Chicago and St. Louis, will value the cattle in the respective lots to determine the value of the feeding. Dean F. B. Mumford of the College of Agriculture will talk on the cattle situation and the meat shortage. Prof. H. O. Allison will report the results of last year's feeding experiment and the results of the test that is closing. Other cattle owned by the University will be inspected.

The experiment this year resembles the work done by the station last year and the two years' work furnishes valuable information concerning reduction in amount of grain necessary to fatten cattle for market.
